

RRMI Professional Certification Courses

AGILE

- Agile Coach Professional Certification - ACPC®** Master agile coaching techniques, leadership strategies, and frameworks such as Scrum, Kanban, SAFe, and Lean; emphasizes mindset shifts, high-performance team facilitation, and cultural transformation.
- Agile Leader Professional Certification - ALPC™** Learn how to foster high-performance agile teams, drive cultural change, and apply Agile methodologies effectively.
- Agile HR Professional Certification - AHRCP™** Learn how to foster a flexible, people-centric culture, implement Agile frameworks in HR processes, and drive organizational change

SCRUM

- Scrum Master Professional Certification - SMPC®** Designed to prepare professionals with the skills and knowledge needed to facilitate the implementation of Scrum in agile teams.
- Scrum Product Owner Professional Certification- SPOPC®** Designed to equip professionals with the skills and knowledge needed to lead agile product development and maximize the value delivered to customers.
- Scrum Advanced Professional Certification - SAPC™** Designed to assess and validate an advanced, comprehensive understanding of the Scrum framework.
- Scrum Developer Professional Certification - SDPC™** Validates your understanding of the agile and scrum framework and your ability to deliver functional, high-quality product increments at the end of each sprint.
- Scaled Scrum Professional Certification - SSPC™** Designed to equip professionals with the skills and knowledge needed to implement and lead Scaled Scrum in complex enterprise environments.

KANBAN

- Kanban Essentials Professional Certification - KEPC™** Provides essential knowledge of Kanban principles and practices, enabling professionals to enhance workflow efficiency and optimize task management.

☐ **User Stories Foundations Certificate - USFC™** Learn best practices to create clear, concise, and valuable stories that enhance collaboration between teams.

OKR

☐ **OKR Master Professional Certification - OKRMPC®** Master alignment techniques, continuous improvement processes, and performance measurement frameworks.

☐ **OKR Certified Professional - OKRCP™** Learn how to create effective goals, integrate OKRs with business strategies, and optimize performance measurements.

☐ **OKR Champion Professional Certification - OKRCPC™** Covers OKR coaching, tracking methodologies, and best practices to sustain high-performing culture.

Artificial Intelligence

☐ **Generative AI Professional Certification - GAIPC™** Provide a deep understanding of the fundamentals of generative artificial intelligence and its impact on the workplace and labor market.

☐ **Artificial Intelligence Professional Certificate - CAIPC®** Provide a solid foundation in artificial intelligence and machine learning, from theoretical concepts to practical applications using Python.

☐ **AI Risk Manager Professional Certification - AIRMPC™** Developed in accordance with the NIST AI Risk Management Framework, is designed for professionals actively involved in the creation, implementation, or supervision of AI systems.

☐ **AI Project Manager Foundation Professional Certification - AIPMFPC™** Equips project managers with the essential knowledge and skills to integrate Artificial Intelligence into every phase of project management.

☐ **Artificial Intelligence Expert Certificate - CAIEC®** Master AI model setup, understand their capabilities and limitations, and explore guided projects to solve complex problems using AI.

☐ **AI Foundation Professional Certification - AIFPC™** Validates that you can use AI safely, ethically, and effectively, understand its limitations, and apply it to real workplace decisions.

Emerging Technologies

☐ **Big Data Professional Certification - BDPC™** Learn key concepts such as the 7 Vs of Big Data, data architectures, technological frameworks, and methodologies for implementing data analytics projects.

❑ **Business Intelligence Analyst Professional Certification - BIAPC™** Designed to train professionals in data extraction, transformation, and visualization using leading tools like Power BI and Qlik Sense.

❑ **Data Storytelling Professional Certification - DSTPC™** Learn how to turn complex analyses into clear, visual narratives using principles of psychology, storytelling, and visualization design.

❑ **Blockchain Professional Certification - BCPC™** Covers Blockchain evolution, enterprise models, and integration with emerging technologies.

❑ **Business Model Canvas Professional Certification - BMCPC™** Provides essential knowledge on Business Model Canvas (BMC), helping professionals design, analyze, and optimize business strategies.

❑ **Ads Manager Foundation Professional Certification - AMFPC™** Introduction to the Meta advertising ecosystem, providing essential fundamentals to plan, execute, and optimize effective campaigns on platforms like Facebook and Instagram.

Cybersecurity

❑ **ISO/IEC 27001:2022 Lead Auditor Professional Certification - I27001LA™** Learn how to assess and ensure compliance with information security standards within organizations.

❑ **ISO/IEC 27001:2022 Internal Auditor Professional Certification - I27001A™** Learn the key principles, concepts, and requirements of the standard, as well as the necessary skills to plan, execute, and report internal audits.

❑ **Lead Cybersecurity Professional Certification - LCSPC™** Provides in-depth expertise in cybersecurity governance, risk management, and threat mitigation strategies; Learn to assess risks, implement security frameworks, and develop incident response plans.

❑ **ISO 27001 Lead Implementer Professional Certification - I27001LI™** Learn about risk assessment, security controls, regulatory compliance, and internal audits.

❑ **ISO/IEC 27001:2022 Foundation Professional Certification - I27001F™** Learn about the implementation and management of an Information Security Management System (ISMS), cybersecurity, and privacy protection.

❑ **Ethical Hacking Professional Certification - CEHPC™** Designed for IT professionals, cybersecurity enthusiasts, and system administrators who want to understand how hackers think, and how to stop them.

❑ **Cybersecurity Foundation Professional Certification - CSFPC™** Aimed at all the individuals who want to guide their future professional career in the area of Cyber Security.

□ **Data Protection Laws (LGPDF™ / General Law)** Provides essential knowledge on data privacy regulations, compliance, and governance under the General Data Protection Law (LGPD).

Business Continuity

□ **ISO 22301 Internal Auditor Professional Certification - I22301A™** - Learn risk assessment, impact analysis, and compliance verification; Covers audit planning, execution, and reporting techniques to ensure organizational resilience.

□ **ISO 22301 Lead Auditor Professional Certification - I22301LA™** - Learn risk assessment, impact analysis, and compliance verification; Covers audit planning, execution, and reporting techniques to ensure organizational resilience.

□ **Certified ISO 22301 Foundation - I22301F™** - Provides fundamental knowledge of ISO 22301, focusing on business continuity planning, risk assessment, and resilience strategies.

Leadership/Quality

□ **Innovation Management Professional Certification - IMPC™** Provide in-depth knowledge of innovation management, enabling participants to stand out in the market by creating disruptive ideas and business transformation strategies.

□ **High Performance Leadership Professional Certification - HPLPC™** Learn how to define a clear vision, communicate it effectively, build balanced teams, set goals aligned with strategy, and apply continuous evaluation and feedback processes.

□ **Customer Experience Specialist Professional Certification - CXSPC™** Master the tools, models, and metrics of CX to create consistent, personalized, and emotionally resonant experiences across the entire customer journey

IT Service

□ **Service Desk Leader Professional Certification - SDLPC™** Provides essential knowledge in managing and leading service desk operations; Learn best practices for incident management, customer service excellence, and operational efficiency.

□ **Software Project Leader Professional Certification - SPLPC™** Provides essential knowledge in software project leadership, covering technical skills, team management, and key aspects of the IT ecosystem.

□ **ISO/IEC 20000 Foundation Professional Certification - I20000F™** Provides fundamental knowledge of ISO/IEC 20000, focusing on IT Service Management Systems (SMS); Learn best practices for service planning, delivery, and continuous improvement.

□ **Help Desk Professional Certificate - HDPC™** Learn about IT service management, leadership in support teams, performance metrics, and market trends such as ITIL, Agile, and DevOps, along with methodologies to optimize customer service.

□ **ISO/IEC 20000 Internal Auditor - I20000IA™** Master advanced audit techniques, stakeholder communication, and compliance verification.

DevOps

□ **DevOps Essentials Professional Certification - DEPC®** Covers key DevOps principles, continuous integration, automation, and collaboration between development and operations teams.

□ **DevOps Foundation Professional Certification - DFPC™** Provides foundational knowledge in DevOps culture, CI/CD pipelines, automation, and cloud computing; Learn best practices for improving software development and IT operations efficiency.

□ **DevOps Advanced Professional Certification - DAPC™** Provides deep knowledge in DevOps principles, continuous integration, automation, and IT service management.

□ **DevOps Culture Practitioner Certificate - DCPC™** Provides a deep understanding of DevOps culture, focusing on collaboration, value flow, and process optimization between development, operations, and business teams.

Quality/LEAN

□ **Lean Six Sigma Green Belt Professional Certification - LSSGBPC™** Provides practical knowledge in Six Sigma methodologies, focusing on process optimization and data-driven decisions.

□ **Lean Six Sigma Black Belt Professional Certification - LSSBBPC™** Prepares professionals to manage and execute high-level Lean Six Sigma projects; Develop advanced problem-solving skills, data-driven decision-making, and leadership in continuous improvement.

□ **Lean Six Sigma Yellow Belt Professional Certification - LSSYBPC™** Provides fundamental knowledge of Lean Six Sigma principles, focusing on process efficiency and quality improvement; Learn essential concepts such as the DMAIC methodology, waste reduction, and basic quality tools.

□ **ISO 9001 Lead Auditor - I9001LA™** Master audit planning, execution, and reporting, ensuring compliance and continuous improvement.

□ **Inventory Management Analyst Professional Certification - IMAPC™** Learn how to calculate optimal inventory levels, forecast demand, and visualize data with tools such as Excel, RStudio, and Power BI.

Lean Management Professional Certification - LMPC™ Master the Lean philosophy, eliminate waste, optimize productivity, and lead transformative changes that contribute to greater value and sustainable success for your organization.
